Art Unit: 1745

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 92-113 and 148-177, drawn to a first fuel cell electrode, classified in class 429, subclass 40.
 - II. Claims 114-147, drawn to a second fuel cell electrode, classified in class 429, subclass 44.
2. The inventions are distinct, each from the other because of the following reasons: the Group II electrode comprises rod-shaped structures and is not made utilizing vapor and is thus distinct from the Group I electrode which is not rod-shaped and is formed with vapor.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. It is noted that in Paper No. 8, the examiner should have additionally required restriction under 35 USC 372 along with 35 USC 121. The two groups noted therein were not linked as to form a single general inventive concept under PCT rule 13.1. The two groups did not relate to a single general concept because they lacked the same or corresponding special technical feature for the reason set forth in Paper No. 8, i.e., that the claims in Group II lack the specific feature of

being formed by a vapor-the electrode could be made by lamination. It is noted that applicant has cancelled claims 48-91.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 703-308-1795. The examiner can normally be reached on Monday-Thursday and on alternate Fridays.
